

List of Plant and Machinery for steel package of 125 mm HE export (Item code: -6432100312)

Firm shall possess manufacturing facilities for manufacturing of sheet metal ammunition boxes of similar design of tendered item (Drg No. PROP/SK-845-01-38) & QAP No. MIL-OFCH-QAP-125MMHE-Ex-12-2023. The plant and machinery a firm shall possess are:

A. List of machinery for steel package

1. Sheet metal working /forming machines such as presses Hydraulic & mechanical
2. Press brake for bending operation.
3. Shearing machine.
4. Spot welding machine/ seam welding machines of suitable capacity.
5. MIG welding / arc welding.
6. Powder coating plant.
7. Surface treatment plant.
8. Grinding machine.
9. Riveting facility.

B. List of machinery for LP container

1. Spiral winding machine.
2. Facility for embossing.
3. Trimming machine.
4. Slitting machine.
5. Foam cutting facility (antistatic polyethylene foam)

C. Testing Facility

1. All measuring instruments
2. Air leak test facility
3. Pull of load testing facility for test, handle, hinge.
4. Drop test vertical.
5. Vibration test.
6. Bounce test.
7. Water immersion.
8. Stacking test.
9. Lifting test.
10. Salt spray test.
