

Nomenclature: COMPRESSOR, ROTARY POWER DRIVEN, 1A 220m³/Hr, 9.8 kPa at 2300 rev/min to CAT SECTION & CAT/PART No.63/4310-000002 and Drg.No.EGA-164/D (Sheet I & II) & other details as per Annexure A”.

Other details:-

- i) Flow: 220 m³ /hr
- ii) Pressure: 9.8 KPa at 2300 RPM
- iii) 12 Sockets for inlet/outlet of air and a set of 12 hoses 10m in length with connectors.
- iv) Pressure at which compartments are inflated: 0.125 kg/cm²
- v) Safety Valve pressure: 0.150 kg/cm²
- vi) Inflating the float in 7 minutes approx.
- vii) Deflating the float in 6 minutes approx
- viii) Total weight of the packing case along with the equipment: 130 Kg
- ix) Fuel consumption 2.50 litre per hour full load.
