### Inspection Report

## HEPF, TRICHY

The HIGH ENERGY PROJECTILE FACTORY (HEPF) is an Indian Defence establishment under Munitions India Limited, A Government of India Enterprise, Ministry of Defence, for production of anti tank kinetic energy projectiles of various calibers and the factory is located about 25 kilometres from the main city of Tiruchirappalli.

### SCOPE OF WORK

PR No: 2300160

#### MACHINING OF RGB60 CHAMBER FORE MOTOR FROM STEEL TUBE (OD 180MM ID 155 MM AND LENGTH 400MM) AS PER DRG No: NASK 1134/1/2 (P) AND QUALITY ASSURANCE PROCEDURE (QAP)

1. Raw material, steel tube (OD 180mm ID 155 mm and length 400mm) BS 970(Pt3)-91Gde 817 M40 (EN24), Hardened and Tempered to X condition and weight 21.5 KGs approximately will be supplied by HEPF .
2. The firm has to carry out only machining work of Chamber Fore Motor including pressure test & burst test.
3. The firm need not return the scrap generated during machining, however, the firm should submit their offer lowest by taking the cost of steel scrap of 15 kgs (approx) generated in machining into account.
4. The firm shall do all the test (pressure test for every component & burst test for one No out of 100 nos ) and maintain the operation sequence as per drawing and QAP. The test to be carried out as per QAP in presence of inspection authorities.
5. The firm has to take utmost care to avoid material rejection due to dimensional/ process deviation during machining.
6. In case of rejection exceeds 2%, the existing cost of raw material will be recovered from the firm. The firm shall also return the rejected components to HEPF.
7. The firm should submit Bank guarantee for the cost of raw material for minimum 50 Nos, and collect the material from HEPF store within 10 days of placement of supply order.
8. Firm should make their own arrangement (including loading/ unloading ) for collection of raw material from HEPF stores and deliver the finished / accepted components to HEPF stores.
9. Firm should submit pilot sample along with dimension report within 15 days of receipt of raw material for prior approval.
10. The pilot sample submitted by the firm shall be inspected by HEPF Quality Control Section / inspection authority before bulk production.
11. After obtaining approval of pilot sample, the firm should maintain the delivery schedule of minimum 50 Nos for every week from the date of receipt of the raw material.

#### QUALITY ACCEPTANCE CRITERIA:

1. The components shall be inspected by Quality Control Section /HEPF or Navel Armament of Inspectorate (NAI) as per drawing and Quality Assurance Procedure (Inspection Report). If it is confirming to both drawing and Quality Assurance Procedure (Inspection Report) the same will be accepted.

**Note:** 1. Prospective bidders are free to visit HEPF before bidding, for understanding the operation.

2. In case of technical clarification the bidders may contact : 0431-2584-645 & 662, 0431-2584600 Extn:271.
