AHSP. SIGN,	D.O.				

The technical drawing shows two views of a cup component. The top view is a side elevation showing a base plate of thickness 20 with a central raised section. The raised section has a total width of $\varnothing \bar{A} \in$, a rounded top with radius R_8, and a small central hole with radius R_5. A dimension <math>< \bar{A} \bar{i}</math> indicates a distance from the centerline to the start of the rounded top, and H_{10} indicates a height. The bottom view is a circular end view showing concentric circles and radial lines indicating symmetry or manufacturing features. A note 'F06-1942' is written near the bottom view.
