Indian Standard
SPECIFICATION FOR
COTTON DUCK
(*Third Revision*)

0. FOREWORD

0.1 This Indian Standard (Third Revision) was adopted by the Indian Standards Institution on 26 September 1983, after the draft finalized by the Industrial Textiles Sectional Committee had been approved by the Textile Division Council.

0.2 The standard, formulated in 1959, was revised in 1970 and 1977. This third revision has been made in the light of experience gained in implementing the standard. Provisions of waterproofing and the requirements of the proofed cloth have been eliminated in this revision as these are covered in IS : 2089-1977* and IS : 6803-1972†. This revised version relates to basic fabric mainly.

0.3 Variety No. 1 of cotton duck prescribed in this standard is based on IND/TC/0201 (d) 'Specification for Duck, Cotton, 745 g/m² (22 oz); Variety No. 2 on IND/TC/0125 (b) 'Specification for Duck, Cotton, 610 g/m² (18 oz); Variety No. 3 on IND/TC/0124 (b) 'Specification for Duck, Cotton, 475 g/m² (14 oz); and Variety No. 4 on IND/TC/0202 (b) 'Specification for Duck, Cotton 340 g/m² (10 oz); issued by the Ministry of Defence, Government of India. Variety No. 5 is an alternate to Variety No. 4.

0.4 For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test, shall be rounded off in accordance with IS : 2-1960‡. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

*Specification for common proofed canvas/duck and paulins (tarpaulins) (*second revision*).

†Specification for special proofed canvas and duck.

‡Rules for rounding off numerical values (*revised*).
